## Electric border nozzle kit

### Concept

Very compact, electric 3-way valve for easy retro fitting at the sprayer, integrated nozzle bodies, switchable from the tractor seat.

### Advantages

- Switchable from the closed tractor cabin
- Minimized energy demand for 3-way valve, no amp – draw during spraying process
- Fast switching operation in less than one second
- Easy mounting at the sprayers boom, liquid supply from lateral nozzle holder
- All parts in plastic or stainless steel – resistant against liquid fertilizer

### Options

Based on the boom nozzle type it can be equipped with OC, IDKS or IS border nozzles from Lechler.

### Scope of delivery

(kit for self-installation)

- Electric 3-way valve 12 V,
- 2 fixing clamps
- 2 pipe clamps
- 4 screws
