TwinSprayCap
Bayonet combi-cap for air-injector nozzles and flat spray nozzles

Bayonet combi-cap (incl. gasket) with symmetrical twin flat spray jet 30°/30° for flexible nozzle equipment.

Advantages
- Variable nozzle selection also of different nozzle types and sizes
- Enhanced deposition through combination of low-drift injector nozzles and standard flat spray nozzles
- Suitable for flat spray nozzles AF 8 and 10
- Nozzle assembly without tools through plug-in clip system
- Assembly via MULTIJET and Hardi bayonet system or intermediate and extension adapters (see page 109)

Width across flats
8 and 10 mm and round hole

Application areas
- Spray frame
- Dropleg®

MULTIJET with round hole bore, e.g. for use on Dropleg® (see page 107)
Ordering no.: 092.163.56.10

MULTIJET
Ordering no.: 092.163.56.00

Hardi
Ordering no.: 092.163.56.01
Recommendation for installations

Wet gasket with water before assembling on nozzle holder.

Note

Select the nozzle size using the l/ha spraying tables – the correct rating corresponds to the determined nozzle size divided by two, e.g. two times -02 corresponds to the application rate of -04 or alternatively one time -015 and one time -025 corresponds as well to -04.
