

Rotating cleaning nozzle PTFE Whirly Series 573/583

Features:

- Made entirely of PTFE
- Slip-on connection conforms to 3-A
- Suitable for corrosive environments
- Suitable for very hygienic requirements (e.g. contact with food)

Series 573/583

Female thread
3/4 BSPP

Female thread
1 BSPP

3/4" and 1" slip-on connection
(conforms to 3-A)
Dimension of the slip-on
connection according to
ASME-BPE (OD tube)

1" slip-on connection
(conforms to 3-A)
Dimension of the slip-on
connection according to
ASME-BPE (OD tube)

Data in brackets refers to 1" version marked with "1".

Max. tank diameter [m]	0	1	2	3	4	5	6	7	8	9
------------------------	---	---	---	---	---	---	---	---	---	---

Cleaning efficiency class
2

Max. temperature
95 °C (version for higher temperatures [130 °C] available on request)

Installation
Operation in every direction is possible

Bearing
Slide bearing made of PTFE

Material
PTFE

Recommended operating pressure
2 bar

Filtration
Line strainer with a mesh size of 0.3 mm/50 mesh

NPT thread available on request.

¹ See drawing 3 for details (Page 200).

The maximum tank diameter applies to the recommended operating pressure and is meant as a recommendation only. The cleaning result is also affected by the type of soiling.

Compressed air should be used for dry blowing for a short time only. Operation above the recommended operating pressure has a negative impact on the cleaning result and wear.

Information about slip-on connections

- Pin made of stainless steel 316L supplied (Ordering no. Pin 1: 095.013.17.06.60, Pin 2: 095.013.17.06.61).
- Depending on the diameter of the adapter, the flow rate can increase due to a leakage between the adapter and the rotating cleaning nozzle.

Ordering Type + Code = Ordering no.
 example: 583.116.55 + AL = 583.116.55.AL
